Hon'ble Mr. Justice N. N. Tiwari joined as a Chairperson on 10.08.2015 & Hon'ble Shri Sunil Verma Joined as a Member (Finance) on 10.01.2014.

1.3 Office of the Commission

The Government of Jharkhand has allotted a piece of land measuring 0.78 acres at Hinoo, Ranchi to the Jharkhand State Electricity Regulatory Commission for construction of its office building. The Government of Jharkhand has awarded the work for preparation of Green building plan and detailed estimates for the proposed construction of the office building for the Commission to the Jharkhand Police Housing Corporation Limited, Ranchi in Feb 2012. Presently the Commission is functioning from rented premises located in Sainik Bazar Complex in the heart of the city.

1.4 Mission Statement

The Commission intends to promote competition, efficiency and economy in bulk power markets, improve the quality of supply, promote investments and advise Government on the removal of institutional barriers to bridge the demand supply gap and thus foster the interests of consumers. In pursuit of these objectives, the Commission aims to –

- Formulate an efficient tariff setting mechanism, which ensures speedy and time bound disposal of tariff petitions, promote competition, economy and efficiency in the pricing of bulk power and transmission services and ensure least cost investments,
- Facilitate open access in inter-state transmission,
- Facilitate inter-state trading,
- Promote development of power market,
- Improve access to information for all stakeholders,

- Facilitate technological and institutional changes required for the development of competitive markets in bulk power and transmission services,
- Advise on the removal of barriers to entry and exit for capital and management within the limits of environmental, safety and security concerns and the existing legislative requirements, as the first step to the creation of competitive markets.

1.5 Guiding Principles

To pursue the mission statement and its goals, the Commission is guided by the following principles:

- Remain equitable in conflict resolution brought to it through petitions after providing sufficient and equal opportunity to participants to be heard.
- Maintain regulatory certainty by remaining consistent in views on one hand and being open minded to adopting change in the evolving power sector on the other.
- Adopt a stakeholder consultation and participative process in formulation of its regulations to ensure that the regulations are in line with the expectations of stakeholders.
- Ensure optimal allocation of resources in the power sector using regulatory and market based mechanism.
- Encourage sustainable development by promoting renewable sources in the power generation.

1.6 Outcome of Regulatory Processes in terms of benefits to Consumers and Development of the Sector

Benefits to Consumers

One of the guiding principles of JSERC is to protect the interest of civil society, including those of consumers and suppliers, while remaining fair, transparent and neutral to all stakeholders. The initiatives taken by JSERC to safeguard the interests of consumers are listed below:

a. Green Energy for energy security

- Enabling provision was made to facilitate installation of generation based on renewable energy sources in the premises of existing thermal generating stations for optimum utilization of resources.

b. Quality of Power

- Stringent Unscheduled Interchange (UI) charges as deterrent against grid indiscipline. Responsibility on the persons in-charge of Transmission utility/Load dispatchers for grid indiscipline.

c. Promotion of Green Energy

After completing his schooling from the Bishop's School, Pune in 1966, Sunil Verma graduated in 1972 in Aeronautical Engineering from the IIT Kharagpur. He joined the Indian Audit and Accounts Service in 1974. Over the next 37 years, he held a number of very interesting assignments, which enabled him to contribute in a variety of areas of governance.

As Internal Financial Advisor in the office of the President of India, he set up its first local area network and put in place a system for speedy execution of works by the CPWD.

As Financial Advisor, New Delhi Municipal Council, he set up its first local area network and ensured a systematic computerised system for billing and collection of electricity. He also enabled NDMC's first ever pay-and-use toilets through a public private partnership initiative. The success of this business model has been replicated throughout Delhi and Mumbai.

As Joint Secretary in the Ministry of Defence, he played a key role in finalising ultra-mega naval and air force procurement actions, managed the DRDO's cadre of 30,00 plus scientists and technicians and established DRDO's first wide area network.

As Member (Economic & Commercial), Central Electricity Authority, Ministry of Power, Government of India, he helped set up the first all India online power industry database and an online portal for jobs in the power industry.

As Deputy CAG of India looking after audit of all Central Government Companies in the country, he was part of a Task Force that established a comprehensive, countrywide

Audit Management System. He was also part of a Planning Commission Expert Panel to propose reform of Central Public Sector Undertakings.

During his career in the Indian Audit and Accounts Department, he was also selected for audit of the United Nations and carried out audit of the Human Resource Office of UN Headquarters and of the Economic Commission for Africa.

Sunil Verma has been working as Member (Finance) of the Jharkhand State Electricity Regulatory Commission since the 10th of January 2014.

4. Objectives of the Commission

The Commission is expected to take measures conducive to development of electricity industry, promoting competition therein, protecting the interest of the consumers, rationalization of tariff and ensuring transparency in its functioning in the State of Jharkhand.

5. Duties and Responsibilities of the Commission

The functions of the SERCs are prescribed in Section 86 of the Electricity Act 2003 which are as follows.

1. The State Commission shall :

a) determine the tariff for generation, supply, transmission and wheeling of electricity, wholesale, bulk or retail, as the case may be, within the State:

Provided that where open access has been permitted to a category of consumers under section 42, the State Commission shall determine only the wheeling charges and surcharge thereon, if any, for the said category of consumers;

(b) regulate electricity purchase and procurement process of distribution licensees including the price at which electricity shall be procured from the generating companies or licensees or from other sources through agreements for purchase of power for distribution and supply within the State;

(c) facilitate intra-state transmission and wheeling of electricity;

(d) issue licenses to persons seeking to act as transmission licensees, distribution licensees and electricity traders with respect to their operations within the State;

(e) promote cogeneration and generation of electricity from renewable sources of energy by providing suitable measures for connectivity with the grid and sale of electricity to any person, and also specify, for purchase of electricity from such sources, a percentage of the total consumption of electricity in the area of a distribution licensee;

(f) adjudicate upon the disputes between the licensees, and generating companies and to refer any dispute for arbitration;

(g) levy fee for the purposes of this Act;

(h) specify State Grid Code consistent with the Grid Code specified under clause (h) of sub-section (1) of section 79;

(i) specify or enforce standards with respect to quality, continuity and reliability of service by licensees;

(j) fix the trading margin in the intra-State trading of electricity, if considered, necessary; and

(k) discharge such other functions as may be assigned to it under this Act.

(2) The State Commission shall advise the State Government on all or any of the following matters, namely :-

(i) promotion of competition, efficiency and economy in activities of the electricity industry;

(ii) promotion of investment in electricity industry;

(iii) reorganization and restructuring of electricity industry in the State;

(iv) matters concerning generation, transmission , distribution and trading of electricity or any other matter referred to the State Commission by that Government.

3. The State Commission shall ensure transparency while exercising its powers and discharging its functions.

4. In discharge of its functions the State Commission shall be guided by the National Electricity Policy, National Electricity Plan and tariff policy published under section 3 of the Electricity Act,2003.

6. Regulations of the Commission

The regulations are made by the Commission in exercise of its power as provided in Section 181 of Electricity Act 2003 to carry out the provisions of the said Act. The Commission frames all its regulations through a fully consultative and transparent process. Draft concept papers are uploaded on the Commission's website and comments and suggestions are invited from all stakeholders – the power utilities, the consumers and all other institutions involved in the electricity industry. Thereafter the Commission invariably holds a public hearing in which yet another opportunity is given to all stakeholders to make comments and give suggestions. After this process is complete the regulations are finalized, notified and uploaded to the Commission's website.

The Regulations made and notified by the Commission so far are given in chronological order. Herein below:-

7. Determination of Tariff

Tariff is determined by the Commission is discharge of its duty prescribed by Section 62 of the EA-2003 for

- (i) Supply of Electricity by a Generating Company to a Distribution Company.
- (ii) Transmission of Electricity.
- (iii) Wheeling of Electricity.
- (iv) Retail sale of Electricity

Just as in the case of the preparation and notification of its regulations, the Commission follows a totally consultative, interactive and transparent process determining and issuing tariff orders.

Tariff petitions are obtained from all generating entities and licensees in accordance with an annual schedule laid down in the Commission's Regulations. Comments of all stakeholders are invited in respect of all tariff petitions. Thereafter, public hearings are held invariably. These public hearings are mandated by the Electricity Act, 2003 and are the most appropriate forum for obtaining opinions, suggestions and objections that are necessary to arriving at the most appropriate and balanced tariffs. In respect of JBVNL, such public hearings are held in at least five cities across the State. After this transparent consultative process is complete, tariff orders are finalised, notified and uploaded on the Commission's website.

8. Dissemination of information

The Commission makes available information to the public and stakeholders through press, website, as also a computer kiosk at Commission's office. The computer kiosk displays the entire information on the Commission's website online.

10. Major Decisions issued in the year 2015

Sl.No.	Subject
1	<p>Provisional Tariff Order on Review of ARR for FY 2013-14(6th Jan 2014-31st March 2014) & FY 2014-15 and ARR and Distribution Tariff for FY 2015-16 for Jharkhand Bijli Vitran Nigam Limited (JBVNL)</p> <p><u>Salient Features:-</u></p> <p><u>ARR & Tariff related</u></p> <ol style="list-style-type: none"> The Commission has approved ARR of Rs. 4566.08 Cr against ARR Proposed by JBVNL of Rs. 6939.10 Cr. The Commission has provisionally considered cumulative revenue gap of Rs. 855.52 Cr as against cumulative revenue gap of Rs. 7353.84. Cr. proposed by JBVNL for the period from FY 2013-14 (6th Jan – 31st Mar 2014) to FY 2015-16. The Commission has allowed a nominal tariff increase to meet the provisionally approved revenue gap only partially while the remaining gap shall be adjusted at the time of true-up on the basis of audited accounts There has been no increase for JBVNL for the last three years while the costs incurred by the Petitioner has gone up significantly: <ol style="list-style-type: none"> capital expenditure incurred towards strengthening of its network 8%-9% increase in Power Purchase cost which constitutes more than 80% of the total costs of JBVNL 7%-8% Inflationary increase in other costs such as O&M expenses Overall tariff increased by the Commission is of 8% against the proposed hike of 40%. The tariff will be applicable from 1st January 2016 instead of retrospective effect as requested by JBVNL. The tariff has been increased to meet the provisional gap to the extent of Rs. 249.66 Cr. only while the remaining gap of Rs. 605.86 Cr. has not been created as regulatory asset as it is not based on audited accounts. No increase has been made in Kutir Jyoti consumer category In line with the trajectory specified in Distribution Tariff Regulations 2010 the Commission has considered Distribution Loss @ 15.50% as against JBVNL's submission of 28% <p><u>Tariff for FY 2015-16</u></p> <ol style="list-style-type: none"> The Commission has determined the retail tariffs keeping in mind the provisions of the National Tariff Policy 2005 and ensuring reduction in cross subsidy gradually and also that the tariffs move towards reflecting the cost of supply within +/- 20% of the average cost of supply. <p><u>Consumer Benefits</u></p> <ol style="list-style-type: none"> The Commission has disallowed increase in Delayed Payment Surcharge and is of the view that JBVNL should propose innovative mechanism such as one time settlements, fixed rate on DPS, etc. to ensure that long due arrears are recovered and improve revenue efficiency as well as benefit the consumers The Commission has disallowed the proposal for change in Power Factor Penalty and Rebate as the treatment for rebate and penalty should be on the same lines. Also, the increase of power factor requirement from 0.85 to 0.90 is not in public interest. The Commission has disallowed the proposal for change in Load Factor Penalty and Voltage

	<p>Rebate as same are against principles of equity and would result in burdening consumers.</p> <p>14. The Commission has not accepted the proposal for levying penalty on entire additional demand beyond the contracted demand instead of over and above 110% of maximum contracted demand.</p> <p>15. The Commission has not accepted the proposal for removal of Restriction of Connected Load for Demand Based Tariff.</p> <p>16. The Commission has not accepted the proposal for removal of Clause 13 of HT agreement keeping in mind the interest of the consumers.</p>
2	Provisional Tariff Order on Review of ARR for FY 2013-14(6 th Jan 2014-31 st March 2014) & FY 2014-15 and ARR and Transmission Tariff for FY 2015-16 for Jharkhand Urja Sancharan Nigam Limited (JBVNL)
