Data Centre and DTR Metering are the activities which are related to establishing Energy Audit System. Energy Audit is a very important programme for the licensee because, through this programme the licensees will be able to know how much is the technical loss and how much is the commercial loss. The programme is much behind the scheduled. The licensee-JSEB is directed to monitor the programme on priority so that it is complete at the earliest.</p>	

Regarding interruption in power supply, the Commission has already vide its order dated 24.04.2012 directed the licensee to inform the Commission of their plan to ensure continuous quality power but no such plan has been filed. Moreover, the licensee must analyse the causes of frequent interruption and take remedial measure so that the continuous flow of power is maintained. No compliance of other issues have been filed which is a serious matter.

The learned lawyer Mr. Ajit Kumar prayed that the licensee be permitted to file compliance on next date on two issues only so that they come prepared. He added that the officials are not able to respond to all the issues under consideration at a time. The prayed of the learned lawyer is allowed. He suggests that the Govt. pending dues and distribution transformers be taken up in the next date of hearing. The Commission agrees. Let the licensee file updated position on these two issues.

Put up for the next hearing on 04.08.2012 at 11.30 AM

Let a copy of this order be sent to the parties.
