From the report filed by the licensee-JSEB it seems various circle officers have inspected 623 transformers. It is also reported that 342 additional distribution transformers have been installed and capacity of 101 transformers have been augmented to meet the additional load. There are around 25 thousand transformers in the distribution system of the JSEB. If this is the pace of inspection of transformers by the field functionary, to check all the transformers they will take years. Obviously, the field</p>	

functionaries have to speed up the inspection of the transformers and the JSEB management may consider the fixing up the targets of such inspection. If the transformers are not in order, it is difficult to supply power to consumers. Secondly the Commission feels that what ever the deficiencies have been noticed during the course of inspection, the same must attended to within 10-15 days.

Regarding pending dues of various government departments, the licensee has stated that they have served an arrears bills on the all concerned departments. The information shown that about Rs. 508 crores dues are pending against various government departments. The licensee-JSEB should take up the matter with the Energy Department and the Chief Secretary to realize all pending dues, as was decided in a meeting held at the level of Chief Secretary.

Learned lawyer for the licensee-JSEB submitted that they they will be submitting compliance report on the remaining issues on the next date of hearing.

Put up for the next hearing on 15.09.2012 at 11.30 AM
