The secretary  
JSERC  
Ranchi

Sir,

As per the public notice for public hearing on tariff for 2020-2021 dated- 29.7.2020  
We would like to send some suggestions

1. We are a HTSS consumer of JBVNL and due to hike in tariff for the year 2019- 20, 80% of the JBVNL consumers have either shut down their unit or have changed from JBVNL to DVC or switched to other discoms in Jharkhand  
Therefore it's a humble request to kindly pass the suitable tariff for HTSS in comparison with other discoms so that the remaining 20% industries are not forced to close their units.
2. There is a difference in load factor rebate of all the discoms ,so we request you to kindly keep same load factor rebates and other discounts for all the discoms in Jharkhand
3. The fixed charge taken by the discoms should be linked with the number of hours supplied .If it is done then the supply of all the discoms will be much better than the current situation and the same has been applied by Regulatory Commission in Bihar for improving the Supply by Discoms.
4. The tariff should be effective from 01.04.2020 for the year 2020-21.

Thanking you

For Renuka Ispat (P) Ltd
