which are involved and is beyond our control and to manage such kind of situation the company always needs cash flow to run and maintain the operation of the plant. Hence working capital is indeed the dire need for the survival of our company.

- c) That, the Respondent Company always believe in contributing in the growth of the country as well as for the State Government under whose jurisdiction our company is working/situated and hence our motto is to become a part of the growth engine for all.
- d) That, the Respondent company is incurring loss for quite a long time because of the low demand and cut throat competition in the domestic as well as global market. The financial health of the company is not very sound and it's been further aggravated due to the present time pandemic issues and the management of the company is reeling under survival threat in the market. Hence our actions are conservative and cautious towards our employees in particular and society in general and our motto is to be the best in practices.
- e) That, w.r.t order sheet dated 22/07/2020 and the invocation of Section 108 of The Electricity Act, 2003, which deals with Directions by State Government the respondent Company reiterates before the Hon'ble Office that this section seeks to confer power upon the State Government to issue direction in writing to the State Commission on questions of policy and that Commission shall be bound by such directions. If any question arises as to whether such directions relate to a matter of policy involving public interest, the decision of the State Government shall be final and is binding for all. In this regard the respondent without any prejudice humbly submits before the Hon'ble Commission that 95% of our consumer base and users are occupant of our own quarter which was for the welfare of our employees because they are involved in manufacturing process and they require accommodation for themselves and their family. Apart from that other government undertaking employees and state government employees (for law and order control) are occupant of our quarter to support us in all our endeavors. It is pertinent to mention here that 95% occupant did not face the problems of reductions in their salary, hence they are in position to pay the consumed electricity charges without much problem. It is further submitted before the Hon'ble commission that 5% of our user base comprises of business community to whom the respondent company has allotted plots to cater the need of our

population well within the town ship area and they are being charged on the basis of actual consumptions of electricity consumed and the fixed meter charges. Hence the directions is applicable only for the 5% of the users.

- f) That, it is humbly submitted before the Hon'ble Commission that our intentions are to support the people and honour the Hon'ble Commissions directions, guidance and orders. It is humbly stated that to satisfy the need of 5% of our users we will be opening the pandora's box of complaints and dissatisfaction among our 95% of the user base. Few among our 95% of the user base may feel deprivation from the Moratorium benefit. Hence the Respondent company has the reasonable apprehension that there will be chaos, distrust and confrontation kind of situation may arise/ take place/ will start happening with 95% of the disciplined and salaried class people and law and order problems like situation may crop up. Hence the Respondent company believes in uniformity and equality while implementing any policies, however the order of the Hon'ble Commission is supreme and binding on us i.e. the respondent Company.
- g) That, the respondent Company has not filed any suit or proceeding before this court or any other court including Hon'ble court Jharkhand at Ranchi related to the similar above said matter which is under consideration before the Hon'ble Commission.
- h) That, the respondent reserves the right to amend the Petition by way of filing supplementary affidavit and bring all the pertinent and relevant facts which is not yet been averred in the instant petition/application because of time constraints and urgency of matter in hand.
