Ref. No.

Date: 6/08/2020

To

The Secretary,

Jharkhand State Electricity Regulatory Commission

Ranchi

Respected Sir,

Sub:- Waiver of Demand/Fixed Charges and DPS (in reference to public notice published in the newspaper on 29/07/2020)

We are a manufacturing unit of M.S. Ingots in Ramgarh area of Jharkhand having HTSS connection and our consumer number is RRH-11878 (Contract Demand-3600 KVA)

Most respectfully, we want to, bring to your notice, that due to last increase of per unit charges, our power cost have increased a lot and because of which it has become very difficult for us to continue our operation.

Our markets are also already down and sales are on a all time low because of the ongoing pandemic

Most of the industries in our region have already shut down or are on the verge of shut down due to higher rate of power and poor business condition.

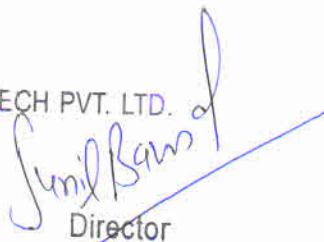

So we request you, to waive our Demand/ Fixed Charges and DPS from March,2020-June 2020 and adjust the total value of the same in our upcoming bills and also waive the same from July, 2020 onwards till the time the pandemic is under control and normaly is restored.

This will be very helpful for us and we will be highly obliged if you immediately pass on the relief to us. It would relive us of our financial burden.

Kindly look into the matter and save our industry

Thanking you

VAISHNAVI FERRO TECH PVT. LTD.
